SUMMARY Detail-oriented Computer Science Undergraduate and Full Stack Developer experienced in building scalable web applications using Next.js, React, Django, and Node.js. Skilled in delivering end-to-end solutions with secure backends, clean interfaces, and efficient APIs, focused on performance, maintainability, and real-world impact.

EDUCATION	Bachelor of Science (Honours) (B.Sc. Hons)	Jul 2023 - Present
	University of Peradeniya	
	- Major in Computer Science - Final CGPA: 3.76	
	Full Stack Developer Course	Mar 2022 - July 2022
	University of Moratuwa	
	School Education	
	- St. Anne's College, Kurunegala - GCE Advanced Level (Physical Science Stream): - Combined Maths – B, Physics – B, Chemistry – C - GCE Ordinary Level: 8 A's, 1 B	2021 2018

PROJECTS	Frontend Developer (Project) — Country & Capital Picker	Sept 2025 - Oct 2025
	- Built an interactive country and capital picker application using JavaScript to randomly display countries and their capitals. - Implemented clean UI logic and event-driven functionality to ensure smooth user interaction. - Focused on simplicity, responsiveness, and maintainable frontend code. - Link: https://random-country-and-capital-picker.vercel.app/	
	Rebuild Peradeniya – Web Development Project	Dec 2025
	- Developed responsive web pages using HTML5 and Tailwind CSS - Collaborated via Git & GitHub using feature branches, commits, and pull requests - Worked on issue-based tasks following project requirements - Applied clean, semantic HTML and responsive design principles - Link: https://ipgss.pdn.ac.lk/donation/index.php	
	Full Stack Developer (Project) — Kuppi.io	Oct 2024 - Dec 2024
	- Designed and developed a full-stack academic resource platform enabling subject-wise access to past papers, PDFs, and curated learning resources. - Built responsive, user-friendly interfaces using Next.js, React, and Tailwind CSS. - Developed secure and scalable backend APIs using Django and REST Framework, integrating frontend and backend systems.	

Team Member

- Designed and developed a browser-based study management tool to help students plan and track daily study activities
- Implemented features for study hour tracking, announcements, flashcards, study tips, and countdown timers
- Focused on structured UI design and client-side logic for usability and maintainability

Technologies: HTML5, Bootstrap, JavaScript

TECHNICAL SKILLS

- **Programming Languages**
 - Python, JavaScript, TypeScript, HTML5, CSS3, Java
 - **Frontend Frameworks & Libraries**
 - React, Next.js, Angular, Tailwind CSS
 - **Backend Frameworks**
 - Node.js, Django
 - **Databases**
 - MongoDB, MySQL
 - **Tools & Others**
 - Git, Postman, RESTful API development, Full Stack Development (Frontend & Backend)
-

PROFESSIONAL SKILLS

- Problem-solving and attention to detail
 - Organizational and time management skills
 - Effective communication and teamwork
 - Fluent in English
-

EXTRA-CURRICULAR ACTIVITIES

- **Athletics (Track & Field)** – Team Member, University of Peradeniya
 - *Sri Lankan University Sports Association Colours | Full Coloursman – 2024*
 - **Basketball** – Team Member, University of Peradeniya
 - *Half Coloursman – 2024 | Full Coloursman – 2025*
-

VOLUNTEER WORK & AFFILIATIONS

- **Editor & Event Volunteer, Pera Basketball Association**
 - Contributed to content creation and supported event organization and coordination
- **Member, Computer Science Society, University of Peradeniya**
